

September 1st, 2015

Dear participants and supporters of the JACET 54th (2015) International Convention,

We are deeply grateful for your attending the JACET 54th International Convention at Kagoshima University, Kagoshima, and would like to take this opportunity to thank you for your contribution to JACET.

We hope you enjoyed and benefited from this convention in many ways. In particular, we hope you were able to take away many new ideas and consider how you might apply the latest linguistic theories and teaching practices to the improvement of English language learning in your various contexts.

We aim to work toward this goal through English language education, which is becoming increasingly important as the world becomes more globally interconnected.

We hope that JACET, with the cooperation of other academic organizations, can contribute to English language education in order to promote peace and understanding among peoples around the world.

We look forward to seeing you in Hokkaido at the JACET 55th (2016) International Convention. Best wishes for the continuing advance of your research and educational efforts through the JACET network.

Yours sincerely,

Hajime Terauchi PhD, President

The Japan Association of College English Teachers

(JACET)
